

FD TOUR SAGUNTO & CAVES SAN JOSÉ

Sagunto relates, through its noble stones, the history of the majestic and decisive cultures in the history of the Iberian Peninsula. A walk through the cultural and historical part of the town, filled with vestiges from past centuries, provides a trip through time, witnessing the importance of the historical and archaeological patrimony of the city. These circumstances have resulted in Sagunto having a wide range of cultural centres where the most distinguished archaeological treasures from the term are brought together. Its cultural character together with the agreeable Mediterranean climate and its thirteen kilometres of littoral, with beaches distinguished with the European blue flag, make the municipality a highly attractive tourist location. After visiting the roman theatre and the castle, we will lunch at one of the restaurants in the maritime promenade.

Afterwards, we will visit the most famous subterranean navigable river in the Region of Valencia, indeed in the whole of Spain, is to be found placidly flowing within the "Saint Joseph Caves" (close to Castellon). You can enjoy an unusual boat ride where an accompanying crew member will point out some of the most ancient or most unusual stalactites. Lunch in a restaurant near the caves.
